

Installation guide

V20.0
20.09.2026

SimHEART is a Progressive Web App that runs in the browser, making it compatible with any device that has internet access and a browser. On mobile devices (smartphones, tablets, etc.), simHEART can be installed on the home screen and used as a full-screen app that is indistinguishable from a native app. Additionally, simHEART requires only a very low internet speed to function, making it easy to use even in areas with a weak internet connection.

Requirements

Browser Safari (from iPadOS 17), Firefox, or Chrome

Other browsers may work but are not officially supported.

Internet min. 50 KBit/s (4 MBit/s recommended)

simHEART is tested on the following devices:

- iPhone 15 Pro, XR
- iPad 10.9 (10th und 11th generation)
- iPad Pro 10.5, 12.9 (2nd, 4th und 5th generation)
- Windows 11 Firefox und Chrome

Installation

SimHEART can be installed on mobile devices as a web application on the home screen and used in full-screen mode. In this form, it is virtually indistinguishable from a native app.

iOS and iPadOS

iOS and iPadOS 26 and above

<https://youtu.be/QjdRQd-wknQ>

Android

Additionally, further settings may be required for applications to be displayed in full-screen mode.

- Settings – Toolbar: disable

- Settings – Home Screen – Navigation Bar: Enable swipe gestures
